

**YOUNG  
AT ART**

*introducing featured artist*

**Name: Carina Tattersall**

**Postcode: 2580**

**Medium: Multi-media**

**1. What was the last piece you finished working on?**

I am working on some naive pieces right now and looking to how that fits with manipulation using electronic media.

**2. When did you first get your sweaty palms on the tools?**

When I was really little in primary school my Mum brought me some watercolour paints and I haven't stopped since then.

**3. Describe your art in three words:**

simple, unique and happy

**4. To date, what has been your crowning glory?**

I drew an awesome plant cell in science yesterday. This is not really unique and strictly speaking art. But it was cool, it looked exactly like the one in the text book.

**5. Ever done anything really crazy in the name of art?**

I once refused to let the art teacher direct the way I was doing my art. Both of us were stubborn about it, but she won cause she kicked me out of the class. This is not really crazy, but it was crazy that she kicked me out of class for me wanting to do MY ART – MY WAY.

**6. In the art world, what gets your blood boiling?**

Art teachers that don't allow you to explore your own style!

**7. How do you promote yourself as an emerging artist?**

I don't promote myself. My art is still just for me at the moment I am too shy to share.

**8. What are some of your most eccentric traits?**

My bubbly personality and randomness! I don't think before I talk or act, so before I know it I have said something or done something. People either hate or love it and have fun with it. Either way I don't care.

**9. Your words of advice to the struggling artist.**

Just keep doing what your doing. Just stick with your kinda art, don't be persuaded by what other people say you should be doing.
